論文 (抜粋) 目次
Table of contents
(Selected published papers and proceedings)

1. Enhanced bending stability of carbon-nanotube-reinforced indium tin oxide films on flexible plastic substrates
K. Chiba and A. Futagami
Appl Phys. Lett. **93**, 013114 1-3 (2008) ¹⁾ -----(1)
2. Analysis of structural distribution of nitrogen-incorporated species at the interface of silicon oxide films on silicon using time-of-flight secondary ion mass spectrometry and Poisson approximation
K. Chiba
Anal Chem. **80**, 6286-6292 (2008) -----(4)
3. Improvement of luminescent characteristics of BaGd₄Si₃O₁₃:Tb Green VUV phosphor by F-incorporation
A. Kobayashi, T. Kunimoto, A. Yamane and K. Ohmi
IEICE Trans. Electron E91-C, 1542-1546 (2008) -----(11)
4. Study of Eu luminescent centers located near the surface of BAM phosphors by conversion electron yield XAFS
T. Honma, T. Kunimoto, T. Hiragi, H. Tanno, H. Kajiyama, A. Kobayashi, S. Orita, and K. Ohmi
Proc. IDW'08, 827-830 (2008) ²⁾ -----(16)
5. Characterization of novel cholesterol esterase from *Trichoderma* sp. AS59 with high ability to synthesize steryl esters
A. Maeda, T. Mizuno, M. Bunya, S. Sugihara, D. Nakayama, S. Tsunasawa, Y. Hirota and A. Sugihara
J. Biosci. Bioeng., **105**, 341-349 (2008) -----(20)
6. A method on parameter estimation of nonlinear systems
M. Horio, J. Morimoto and T. Tabuchi
Proc. SICE 2008, 20-22 (2008) -----(29)

7. Carbon-fiber-composites materials for medical transducers

T. Kondo

Piezoelectric and acoustic materials for transducer applications

(Springer Science+Business, New York, 2008), 179-188

------(33)
